Client Meeting AITC Meeting Room Chair: comfy

Secretary: Paul Apelt

Summary:

Client updated on progress, all queries answered. Feedback on audit presentation received.

Actionable Items:

- Modify audit presentation as per client feedback
- Create list of urgent

Attendance:

Celine D'Orgeville (CD), Alex (A), Steve (S), Chris Leow (CL), Paul (P), Brian (B), Wen Jie (W)

Agenda:

Item	Discussion	Actions + Responsibilities
Meeting Open	14:14	•
Updates/Progress	W: Detailing work package breakdown	
today	CD: Generate the requirements for the ANU laser, they	
•	may then be incorporated into the design	
	A: Detailing the designing of mechanical aspects. –	
	material for the support structure, size difference of the	
	breadboards, admin access problems with the computer (in	
	process of arranging admin access for the files),	
	A: ANU Laser first, mounting on breadboard?	
	CD: Is not a specific budget for this. Discuss with James	
	constraining work to 2 breadboards, giving access to third	
	in the event of this. Otherwise, find another way to mount	
	the system. Difficulty is the transfer optics setup.	
	CL: Discussing the templates and acquiring them.	
	CD: Attaining the documents – from Justin	
	S: showed updated requirements to C	
	S: incorrect measurements on the telescope, power points	
	(going through the requirements)	
	S: updated air quality requirements, power draw without toptica	
	CD: you made good progress	
	S: C and A will continue with CAD. B and W will work on cooling, power draw.	
	CD: EOS laser parts will be mounted off the telescope	
	somewhere else. Look at cable routing etc.	
	S: Our audit is next week, monday 1300. [explains tutorial	
	things]	
	CD: I will check my calendar and tell you if I can make it.	
	Do you need anything from me?	
	A: The only thing A and C wanted to talk about is available	
	space for the ANU laser.	
	CD: No, for the pitch.	
	D. [avalains presentation]	
	P: [explains presentation] CD: add context slide stakeholders visual aid discuss	
	CD: add context slide, stakeholders, visual aid, discuss	
	problems	

Client Meeting AITC Meeting Room Chair: comfy Secretary: Paul Apelt

	S: Show list of project requirements? To show how many	
	there are.	
	CD: Use a single picture to illustrate, give number of reqs.	
	CL: pls gib design report templates	
	CD: yeah mate totes you can get some templates. But	
	they're paper	
	A: for mechanical bit the previous group did some pretty basic stuff, should we have more details?	
	Conceptual/prelim?	
	C: [illegible] no data [] black box	
	B: any document to explain what the electrical cabinet does for the ANU laser?	
	CD: yeah there will be a cabinet, houses control hardware:	
	PSU, cooling, controls to drive laser components. I don't	
	know.	
	B: control signals go to cabinet and then laser?	
	CD: no, they are generated in the cabinet	
	B: [illegible]	
	CD: there will be fibers between the EC and laser head	
	B: single phase or 3 phase?	
	CD: no idea sorry	
	S: when will the specs be out?	
	CD: still in contractual phase, put together most critical	
	questions in a document and we'll have them for you ASAP	
Meeting Close	14:58	
wiceting Close	17.50
